## FLOWER SEED NOVELTIES

## ANTIRRHINUM nanum grandiflorum Majestic "Avalanche"

A grand addition to the Majestic class, bearing very large flowers of a shining, pure white on a spike of highly symmetrical shape. Of an ideal habit of of growth, the snowy masses of this splendid variety make a marvelous display when employed for bedding.

## Pkt. 50c.

## ANTIRRHINUM nanum grandiflorum Majestic "Rose Beauty"

A variety of this shade has hitherto been wanting among the Majestic Antirrhinums. It is a charming pure rose pink self and makes a brilliant effect when massed in beds. Rose Beauty will be a welcome addition to this wonderful strain of Snapdragons.

Pkt. 50c.

## ANTIRRHINUM nanum grandiflorum "Rosabelle"

This excellent new variety is of the early flowering type. Of bushy, compact habit, it bears on a handsome well formed spike Iarge flowers of a rich carmine rose. As a bedding plant, it will be a worthy competitor to the popular variety Dazzler.

Pkt. 50c.

Aster

ANTIRRHINUM NANUM GRANDIFLORUM

## ASTER Alpinus albus giganteus

This new white Giant Alpine Aster attains a height of about $8-12$ inches, according to the condition of the soil; blooms abundantly in May-June and is splendid for borders, rock gardens or also for cutting and pot work.
The flower is much larger than the old sort and bears a three-fourfold wreath of petals. The blooms are more beautiful and suitable for cutting and also stronger than the ordinary white Alpine-Aster.

Pkt. 35c.

## SUNBALL ASTER

## Dark Amethyst Blue

The Sunbali-Aster newly introduced is dwarf, and round and of bushy growth, especially adapted for bedding and for pot work. The flowers are like those of the Sunshine Aster which is suitable for cutting and bears an outside wreath of graceful petals with a yellow center. The flowers are dark amethyst blue which harmonizes marvelously with the yellow center.

Pkt. 50c., 5 pkts. \$2.00

## ASTER-SURPRISE <br> "Salmongold" <br> (Annual)

When starting to flower it is pure salmon yellow colored; the fully developed blossom shows a radiating salmon pink shade. The single bloom is $23 / 4$ to $31 / 2$ inches in diameter; it is of a noble, circular round form. A quite special advantage of the flowers is their long durability. The cut flowers remain in water quite fresh for 2 to 3 weeks.

Pkt. 35c., 5 pkts. $\$ 1.50$

## ASTER <br> "Wartburg Star"

A new giant flowering strain of these popular Spring Asters. The bright Iavender blue Marguerites, with yellow centers measuring more than 4 inches across, are borne on stalks 28 inches long and appear in flower even earlier than those of the well known varieties Artemis, Apollo, Floribundus, etc., and at the same time as the Aster Alpinus Superbus. Used alone or with white Marguerites and Gaillardia which are in flower at the same time, this giant, light blue Aster is extraordinarily effective for vases and table decorations, etc., and is especially acceptable during the end of May and June when other long stalked cutting flowers are scarce.

Pkt. 50c.

## AQUILEGIA

## Vulgaris compacta erecta, "Edelweiss" (Perennial)

One of the earliest Spring flowers, this charming Aquilegia growing 16 to 20 inches high, covers its bushes with Iarge, erect snow white blossoms; the very thing in conjunction with the light green foliage for awakening joy in the garden. Fine for the rock garden and perennial borders.

Pkt. 50c., 5 pkts. \$2.25

## AURICULA ALPINE

## 'Triumph'

A giant strain of this favorite Spring flower, the blooms measuring from $11 / 2$ to 2 inches across. It is very floriferous and the flowers are borne on extra strong stalks, the colors arrange from dark crimson scarlet to cream color.

Pkt. 50c., 5 pkts. $\$ 2.00$

## BEGONIA GRACILIS

## "Carmen'

This new sort, is, in spite of the large number of new Begonia varieties, worthy to be added to the collection.

The very dark black brown leaves, the colors comparable to the leaves of the Purple Beech, or the Perilla, with the clear bright pink flowers have such a wonderful effect that this sort will certainly be much appreciated by the gardeners and lovers of flowers.

Pkt. 50c.

## BEGONIA SEMPERFLORENS <br> 'Striegau'

The first giant flowering Begonia semperflorens "Striegau." Grows up very strong and has a great likeness to the kind called "Liegnity." It reaches the height of about 10 inches; the size of the flower is on the average $21 / 2$ inches in diameter. Quite especially surprising is the large number of flowers each plant bears. The color is a rich and fiery carmine.

Pkt. \$1.00

## BROWALLIA

Viscosa compacta. "Sapphire."
The very straggling habit of Browallia viscosa has always been a drawback, but our new form is a wonderfully compact little plant, not over 9 or 10 inches high, bearing sometimes over a hundred dark blue flowers with an eye suggesting a Iarge flowered Lobelia. Commencing to bloom in July, it is of exceptional value for conservatory decoration.

Pkt. 50c.

## CALENDULA

## Officinalis flora pleno, "Radio"

 (Annual)In "Radio" we introduce a variety which is entirely new, having a distinct break in the formation of the flower. The petals are beautifully quilled, which has an extraordinary effect on the appearance of the flower, adding such beauty of form that it should be in everyone's garden. This formation of the petals gives an added sheen and warmth of tone that is very attractive. The flower is extremely, globular in shape and does not show the "center" until in a very advanced stage.

Pkt. 25c., 5 pkts. $\$ 1.00$.

## CALENDULA

Officinalis flore pleno. "Bolls Apricot"
Pkt. 35c.

## CALENDULA

Officinalis flore pleno. "Cockade"
Bright orange; Iong stem.
Pkt. 25c.

## CAMPANULA <br> Rotundifolia "Olympia"

This is a much Iarger flower than the ordinary Ha rebell, of a beautiful, deep Iavender blue, of perennial habit and commencing to flower in June. Not exceeding 8 inches in height, it is of neat and compact habit and is most attractive both for bedding and as a pot plant.

Pkt. 50c.

## EARLY FLOWERING AMERICAN CARNATION HYBRIDS

Shades of violet and purple, orange, salmon red, pink, some beautifully picoteed and striped; yellow, salmon, cream and pink ground colors blotched and interlined with orange, blue and purple. While they bloom profusely in the garden they will continue to flower right through the Winter if the plants are transferred to the greenhouse.

Pkt. $\$ 1.00,6$ pkts. for $\$ 5.00$

## Three Novel Types of Dahlias DAHLIA, COLTNESS HYBRIDS

## (Mignons)

(Annual)
These pretty bedding Dahlias grow from 1 to $11 / 2$ feet in height with plants of a bushy habit. Producing flowers freely from seed the first year. The blooms are of the brightest colors and continue in flower from early July until destroyed by frost. It is easily grown from seed with a wonderful variety of colors in this selection. A novelty of great merit. Pkt. 35c., 5 pkts. \$1.50.

## DAHLIA, STARFISH STRAIN

## (Digoiner Star or Orchid Dablia)

A medium growing, single Dahlia, blooming the first year from Spring sown seed, its petals twisted in such a manner that the flower resembles a starfish in appearance. Blooms from early Summer until killed by frost. Includes many beautiful colors. A novel introduction for Dahlia lovers. Pkt. 50c., 5 pkts. \$2.00.

DELPHINIUM ELATUM "ICEBERG"

Dahlia, Starfish Strain

## HOLLYHOCK DELPHINIUMS <br> Bassi's Giant Hollyhock Strain (Perennial)

This handsome strain is a fine mixture of all light shades, pale, clear blue predominating. The flowers are giant, truly double, well-placed on beautiful, long, pyramidal spikes, growing to a height of 6 feet. We highly recommend it to those who wish a select strain of this wonderful improvement in perennial Delphiniums.

Pkt. 35c., $1 / 1 /$ oz. $\$ 2.50$

## DELPHINIUM ELATUM <br> "Iceberg'

This is the first white perennial DeIphinium which comes true from seed. It belongs to the Elatum class and grows 48 inches high. The 20 inch spikes are thickly covered with large, pure white blooms. These plants are especially noted for their strong, healthy growth. They flower from June to August. In the second year when the plants are fully grown, the big white spikes are particularly beautiful and form an effective contrast to the dark and pale blue varieties. The "Iceberg" seedlings will be the starting point for creating splendid new varieties. Although great progress has been made with all blue shades of DeIphinium, there is no other useful white variety beside Moerheimi.

Pkt. 50c.

## DIANTHUS

## "Highland Queen" (Perennial)

The most brilliant perennial Dianthus in cultivation, bearing in profusion flowers of a Iustrous scarlet vermilion color, which captivates the beholder at first sight. It is extremely hardy, of vigorous growth, and ideal for bedding, borders and the rock garden, continuing in bloom, as it does, from the end of May until November.

Pkt. 50c., 5 pkts. \$2.00.

## New Recheller

## DIANTHUS

## Sweet Wivelsfield (Perennial)

A novelty recently introduced from England. The flowers can be described as multiflora type. It is very attractive and is becoming popular. Desirable for rock gardens.

Pkt. 35c., 5 pkts. \$1.50.

## DIANTHUS NOBILIS <br> "Fireking"

## DIANTHUS NOBILIS ALBUS

"Schneewittchen"
Dianthus nobilis "Royal Pinks" is known to be the most beautiful and largest flowering single Dianthus. Its nicely frilled and fringed petals give it a more pleasing appearance than you will find with the other single Indian Pinks. We have now segregated the splendid mixture into two colors, which fall true to seed. The red sort "Fireking", has flowers of a bright crimson suffused velvety purple, whereas the sort "Schneewittchen" (Snow white Princess) is quite snow white. The new varieties are of compact growth and attain a height of about 8 inches.

Pkt. 35c.

## ERIGERON DIVERGENS

Lovely delicate lavender; Daisylike flowers, about $3 / 4$ inch in diameter, borne on long stems. It is the annual form of the well known Erigeron, and will be of great value for bedding and cutting. It can be sown in the open and blooms quickly from seeds.

Pkt. 50c.

Erigeron divergens

Dianthus

## New Frilled <br> ESCHSCHOLTZIA RAMONA (Annual)

Among the many fancy varieties of Eschscholtzia introduced during the past year, Ramona stands out as a distinct and very charming type in the frilled class. It is a single, but the frills give it the appearance of a semi-double. The color is a pale but glittering coppery gold with pink shadings, and very pleasing to the eye. This unusually attractive novelty, which is well fixed, should be included in every collection.

Pkt. 25c., 1/4 oz. 75c.

## GAILLARDIA GRANDIFLORA <br> "Burgundy" <br> (Perennial)

Sixty to 70 per cent pure red flowering plants can be counted on. Burgundy Gaillardia is most effective both in the perennial borders and when cut. Experts, both at home and abroad, have honestly admired this red Gaillardia.
Pkt. 35c., 5 pkts. $\$ 1.50$

Gaillardia "Burgundy"

## GODETIA

## Whitneyi azaleiflora fl. pl. "Rembrandt"

This novelty attains the height of about 16 inches; is of compact and bushy growth, weII double and blooms profusely.

The color of the flowers is of the pleasing bright pink of the well known Rose Neyron, and extends to the top margin of the petals.
The flower bears a great dark purple patch upon the ground of the petal. The combination of colors is very attractive and the flower presents a brighter and more fiery appearance than the original.

The simple culture of this variety is that of an annual. It is sown in the open ground or treated in a warm bed beforehand.

Pkt. 35c.

## GODETIA GRANDIFLORA 'White Swan'

This new sort is an important improvement of the well known, Godetia "Duchess of Albany."
"White Swan" is more dwarf, symmetricaI, compact and larger flowering than the old sort and is of a perfect, clear satin white without any other shade. It surpasses by far the original in every way. It obtained an "Award of Merit" at the R. H. S. Gardens, Wisley, in the Summer of 1930.

Pkt. 35c.

## HELIOPHYLLA LEPTOPHYLLA

This is an excellent plant for pots and borders, more compact than Heliophylla Iineafolia and bearing larger flowers $1 / 2$ inch across. These are of a bright blue, intensified toward the center, with clear white eye. It is very floriferous and for the border should be planted 9 to 12 inches apart.

Pkt. 50c.

## FOUR NEW VARIETIES OF PANSIES <br> Pansy Roggli; Lake of Thun <br> A striking blue Pansy with dark blue blotches.

 Pkt. 60c.
## Pansy Roggli; Cardinal (Alpenglow)

 A beautiful cerise red.Pkt. 60c.
Pansy Roggli; Golden Yellow Pkt. 60c.

## Pansy Roggli; Giant Mixed

This new variety is the result of years of thorough breeding. The flowers are flat, of exceIlent substance of immense size and the mixture shows outstanding and very attractive colors; mostly large blotched. Pkt. 50c.

## PETUNIA

New Dwarf Fringed California Giants (Annual).
The most compact Giant Petunia with the largest and best formed flowers of any dwarf growing type of Fringed Petunia. When in full bloom the plant shows large, colorful flowers with open throats well marked and veined, making a very handsome effect. Pkt. 50c., 5 pkts. $\$ 2.00$.

## ICELAND POPPY (Nudicaule) El Monte (Perennial)

This is a deep tangerine orange selection from some giant hybrids. The flowers are of enormous size, twice the size of the Sunbeam strain, borne on Iong, wiry stems. It comes true to color, is extremely easy to grow and can be produced in six months from seed. It is fine for cutting.

Pkt. 50c., 5 pkts. $\$ 2.00$.

## PAPAVER <br> Somniferum laciniatum fl. pl. dark plum violet

The Collection of the Feathered Poppies is enriched with a distinct, attractive new color by this novelty. The color is hard to describe; being a dark plum violet on a lilac violet ground.

The peculiar, deeply fringed and feathered flowers of this Poppy always attract the attention of the lover of Poppies who will like such a cut flower of a color out of the common, which besides is easily cultivated by open ground sowing.

Pkt. 75c.

## NEW HARDY PERENNIAL SCABIOSA Columbaria Giant Pink (Perennial)

This is a South African form of the popular European Scabiosa and although reminiscent of Caucasica, is a distinct type. There is a decided place for this on the perennial border. It can be briefly described as a hardy, Iow growing perennial with fine, handsome, light green foliage, some of the flowers measuring from 2 to $21 / 2$ inches across with short, compact petals borne on long, slender but strong stems.

Pkt. 35c., 5 pkts. \$1.50.

## STREPTOCARPUS

## Hybrid Grandiflora 'Caritas'

The Iarge flowering Streptocarpus hybrids are not cultivated and offered for sale as much as they deserve to be. They possess excellent qualities; are easily grown, flower for a long period and produce most gloriously colored blooms. "Caritas" supplies the perfect white among the separate varieties which come true from seed. It is distinguished by Iarge, dazzling white flowers which together with the fresh green foliage make the plant most attractive.

Pkt. 75c.

## VENIDIUM FASTUOSUM

(Annual)
Its brilliant orange flowers, 4 inches across, with shining black centers, are placed to perfection in a setting of a soft gray, woolly foliage, making this a desirable and indeed brilliantly showy plant in the garden, and a most desirable flower for cutting. It needs a warm soil for quick germination and it is best to start the seed in a hotbed in March or ApriI; outside, it should not be sown until May, when the ground is warm. The plants branch freely and will bloom abundantly in less than three months from seed. Received Award of Merit, R. H. S. England.

Pkt. \$1.00, 6 pkts. for $\$ 5.00$

## FLOWER SEEDS (Amunus)

## ADONIS ALEPPICA

(The Syrian Flos Adonis)
